If you use a wheelchair, you will find this program adaptable to your specific needs.

STRENGTH & BALANCE: Strength and Balance is a class where we focus on strengthening and enhancing our balance abilities.

TABATA: Tabata Bootcamp is High Intensity Interval Training (HIIT) using the 20-10 Microburst Training Protocol (20 seconds work, 10 seconds rest). Workouts are short in duration and designed to boost post exercise calorie burn so your metabolism keeps burning more calories long after the exercise is over. Participate in Tabata workouts that will result in true, successful weight loss and muscle gain.

TAI CHI: Tai Chi is an internal art focusing on mind, body and spirit. It is a gentle exercise, often referred to as moving meditation. There are many scientifically documented health benefits, and through regular practice, one can improve mental focus, and reduce the effects of stress, strengthen internal muscles, improve balance and breathing, and cultivate an overall healthier approach to daily life.

ZUMBA®: We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and World rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise. Super effective? Check. Super fun? Check and check.

YOGA: (Vinyasa Flow) In this class you will develop a deeper mind-body connection growing both inner and outer strength and increased flexibility. Suitable for all levels- expect a challenge or two each class and leave feeling rejuvenated and empowered.
