Dance HIIT is a combination of fun dance moves and HIIT (High-Intensity Interval Training). HIIT workouts are FABULOUS because they're designed to burn fat, build muscle, and enhance overall fitness performance. Research shows dancing can improve your mental health by boosting your overall happiness, improve cardiovascular health, increase stamina, and strengthen bones and muscles. Dancing has also been proven to increase brain function, boost spatial memory and improve cerebral health.

TABATA: Tabata is High Intensity Interval Training (HIIT) using the 20-10 Microburst Training Protocol (20 seconds work, 10 seconds rest). Workouts are short in duration and designed to boost post exercise calorie burn so your metabolism keeps burning more calories long after the exercise is over. Participate in Tabata workouts that will result in true, successful weight loss and muscle gain.

WATER AEROBICS: This is a Moderate to High cardio workout in the water which will increase your heart rate, strengthen your muscles, utilizing the water as a resister in order to define & improve physical endurance.

YOGA: (Vinyasa Flow) In this class you will develop a deeper mind-body connection growing both inner and outer strength and increased flexibility. Suitable for all levels- expect a challenge or two each class and leave feeling rejuvenated and empowered.

YOGA: (YIN) Yin yoga is designed to increase flexibility by holding poses for longer periods of time, allowing both muscles and connective tissues to stretch. Most poses are very accessible, even for beginners. Stretch your body; stretch your mind!

ZUMBA®: We take the "work" out of workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. Once the Latin and World rhythms take over, you'll see why Zumba® Fitness classes are often called exercise in disguise. Super effective? Check. Super fun? Check and check.
